CAPITOL PATROLEUM CO.,

A PRODUCING DIVIDEND PAYING COMPANY WISHES TO ANNOUNCE TO ITS STOCKHOLDERS

THAT ON NOV. 15, 1919,

The Company will pay its fifth quarterly dividend. This dividend, is much larger than the last one.

More Than \$40,000.00

(FORTY THOUSAND DOLLARS) will be distributed in cash among the stockholders, and there are 1300 Colored stockholders who participate in these dividends. This is a Colored Investment Security House and the only one of this kind in the United States.

While it is a fact that this is a pretty large dividend, yet this is not "Big Dividend" that was expected to have been paid at this time. In all probability, however, the Big One will come next time, and I confidently expect the dividends will increase regularly every three months until they finally will be equal to the original amount invested.

In Order to Accomodate Some of My Friends

Who have always been loyal boosters for Capitol Petroleum, and who have worked always faithfully for the best interests of the company, the company has consented to hold back the dividend until November 15th, so that they might have time to see their friends and prospective investors and to get their subscriptions mailed in time to have them participate in the dividend.

Therefore, Please Take Notice:

To shares in the next dividend your subscription must be mailed on or before November 15, 1919. I reserve the right to return your money if the allotment is over subscribed. No subscriptions accepted for less than ten dollars.

All Indications Now Point to a Big Well In Mexico

This well is now flowing nearly 3,000 barrels per day. This will make stock very valuable, and I believe that it will soon be at least \$5.00 per share. Don't miss this opportunity to get in on Capitol Petroleum before the Big Well comes in. Shares now One Dollar each.
